Ford Transit Custom

In April 2025, Frontline Campervans released its all new 'Frontline Ford Transit Custom' campervan.

The design of the new Ford Transit Custom has allowed Frontline Campervans the opportunity to re-imagine the storage arrangements of the new camper. In such, Frontline has been able to include a variety of the most popular features in previous models all in one camper. These are features such as the largest bed in the range, large wardrobe, increased bench space, and the electrical system has been located to allow for additional storage space in the rear boot area.

Making anyone's driving holiday experience more relaxing, many of the sought after 'premium level' vehicle safety and driver assist features are now standard in this new vehicle.

The notable features include items such as Intelligent Adaptive Cruise Control, Dynamic Stability Control, 6" front and curtain airbags to the drivers cabin, Lane Keeping Aid and Lane departure warning systems, as well as Forward Collision Warning and Evasive Steering Assist. All adding to the confidence you'll feel when driving your new Frontline Campervan.

Combining comfort and effortlessness are the many Audio and Comfort and Convenience inclusions of the Frontline Transit Campervan, making your driving experience a pleasure. Features such as the driver and passenger cabin armrests, heated front seats, large 13" touch screen audio display and configurable 12" driver display. To make life easier when travelling the audio system includes wireless Apple CarPlay and Android Auto, as well as DAB and FM stereo, plus wireless phone charging for compatible phones.

This new generation vehicle brings with it an exciting leap forward in standard vehicle inclusions, with upgrades in passenger safety, passenger comfort, cabin and rear area space, plus easier accessibility.

Getting started is now even easier with keyless entry, push button start and electric handbrake. Once you are driving there is climate control heating/cooling, front and rear parking sensors and rain sensing wipers. You will also notice that the combination of 390Nm / 125Kw engine, updated 8 speed automatic transmission, Independent Rear Suspension and 4 driving modes, all make for a smooth and effortless drive.

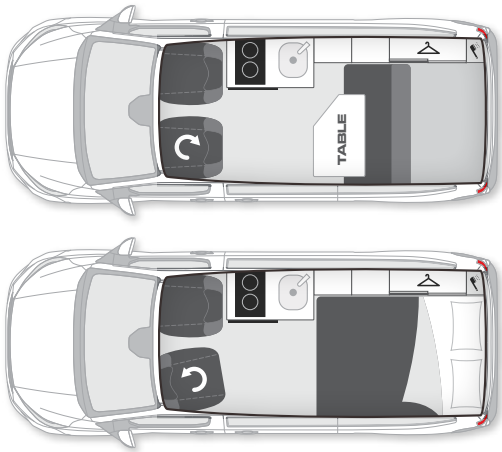
The fully horizontal elevating pop top roof, that Frontline is so well known for, that offers maximum ventilation for Australian conditions, is continued on in the new Frontline Transit Campervan. The all new cabinetry layout incorporates our state of the art battery and charging system, providing increased storage space that is always important when heading away on any holiday. At Frontline we already love the new Transit Custom Campervan, and we're sure you will too.

Frontline has manufactured over 4,000 quality campervans since 1987. We pride ourself on maintaining a very well respected name by constantly producing quality products with highly trained staff, quality fittings and excellent after sales service.

Choose from five flexible smart campervan layouts to suit your camping style

Adventurer

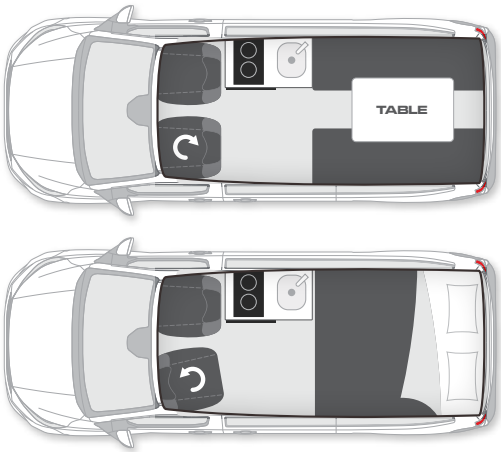
SEATS 4



Versatile all-rounder that seats 4

Freedom

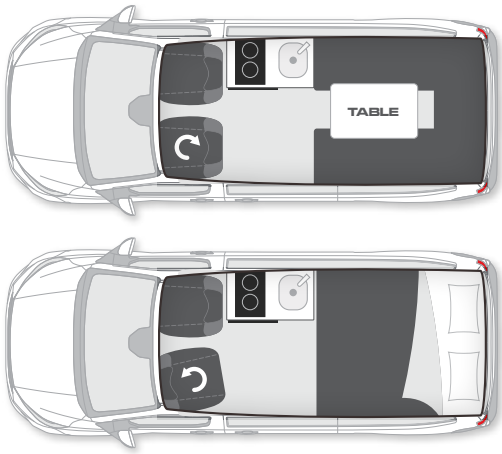
SEATS 2



2 Large single beds

Avalon

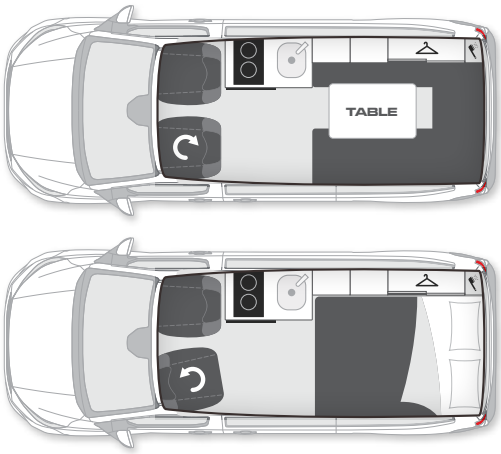
SEATS 2



Large boot storage

Avalon 1

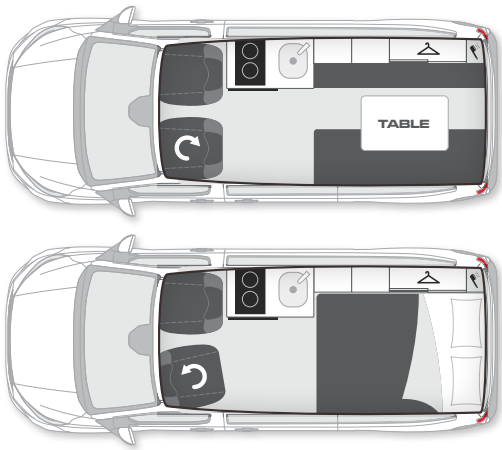
SEATS 2



Flexible living area

Vacationer

SEATS 2



Single bed converts to a large double

Ask the Frontline team which layout may suit your needs best

All Frontline Campervans can be optioned with an additional roof bed for sleeping 4. All conversions come with Frontline's full elevation pop-top roof system, this is better suited to the Australian climate with superior ventilation.

Standard conversion features include 12 volt lighting, 240 volt power points, long-stay auxiliary battery with auto charging, solar charging options, water tank for sink and hand-held shower with electric pump, fridge freezer, removable table and several different cooking options.

Opening flyscreen windows ensure you can always enjoy cooler fresh air. Removable zippered flyscreen panels can also be fitted as an option for the sliding door and rear tailgate.
